MERN Stack Application

Task

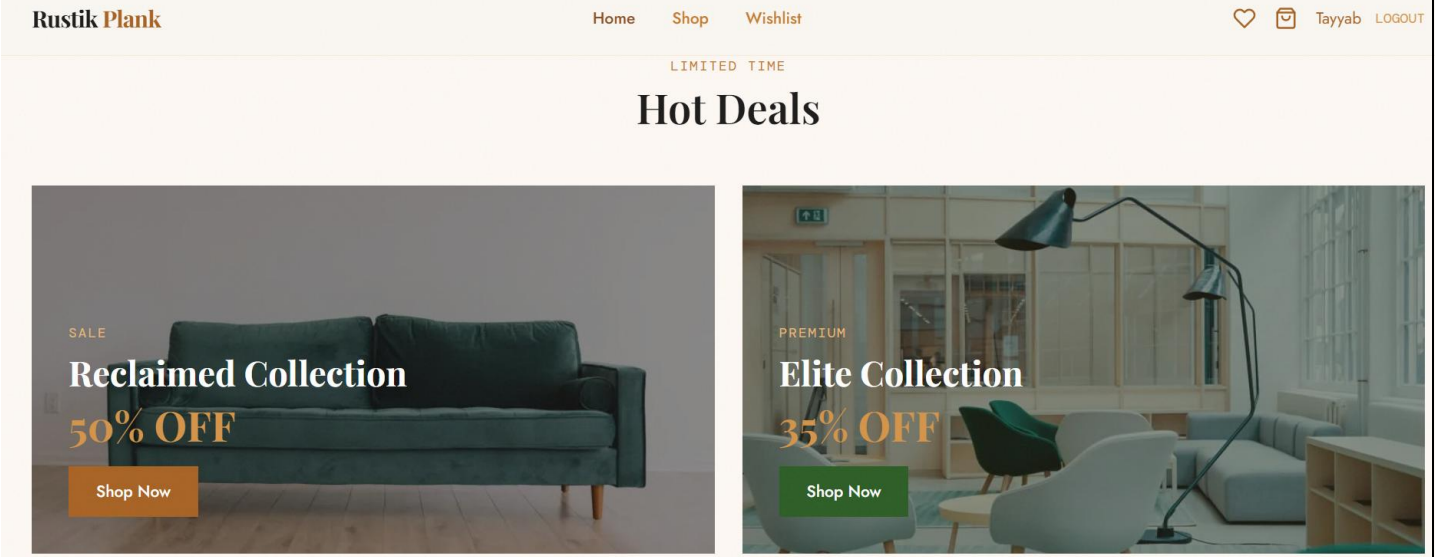

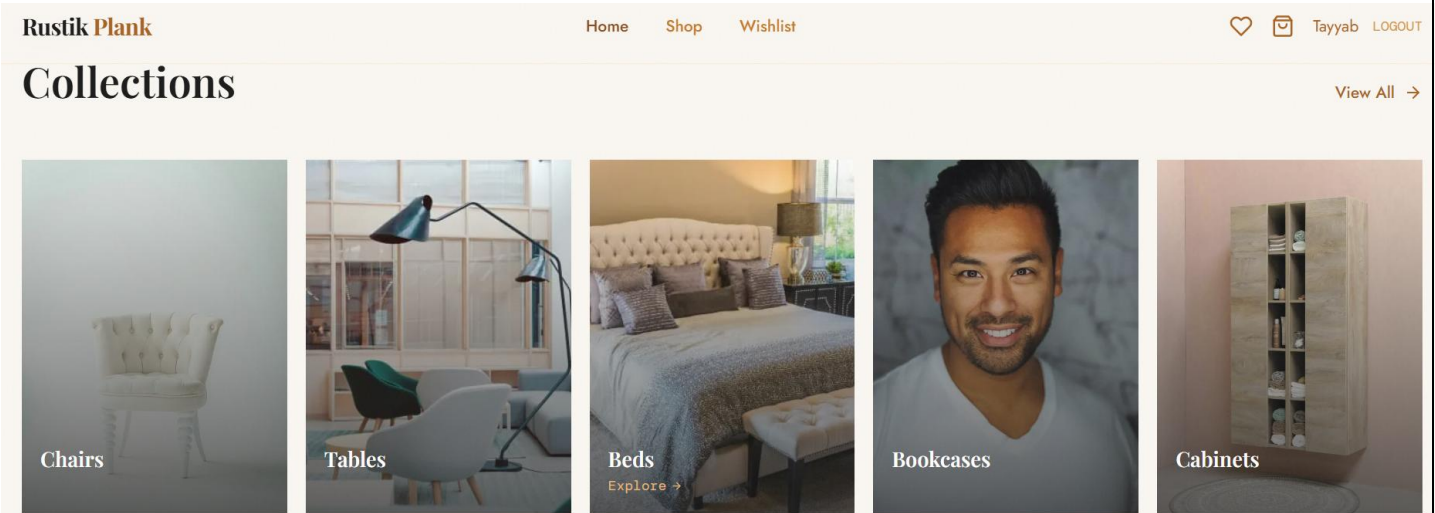

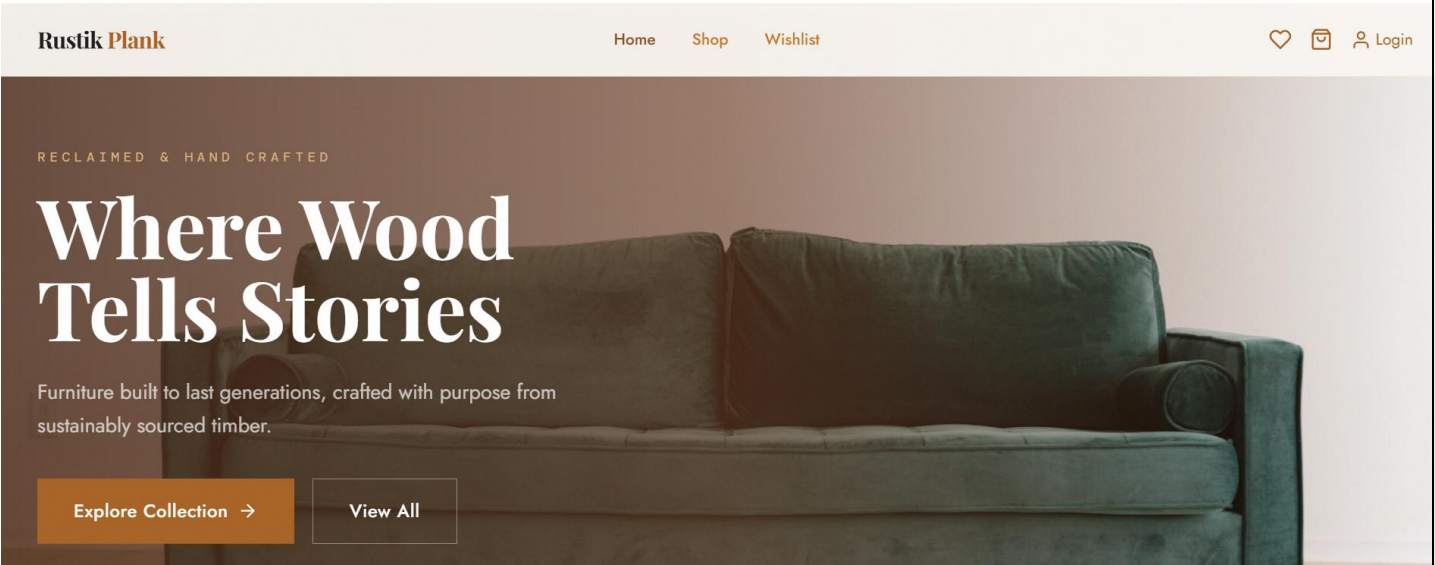

Develop a complete and dynamic eCommerce application based on the provided mock template files: Rustik Plank.jpg and Rustik Plank.psd (rustik plant.zip) using Next.js, Node.js, Express.js, and MongoDB along with all other required libraries and packages.

- The backend should be developed using Node.js, Express.js, and MongoDB.
- The frontend should be developed using Next.js and Tailwind CSS.
- Develop all main pages and sub-pages according to the provided design files.
- The website must be fully responsive for mobile, tablet, and desktop devices.
- The application must be fully dynamic with proper database integration and CRUD functionality.
